

Sprint Retrospective, Iteration #8 (last iteration)

Context Project: TSE
Group: BlueTurtle

User Story	Task	Member responsible for the task	Task Assigned To	Estimated Effort per Task (points)	Actual effort per task (points)	Done?	Pull Request Number / Branch name / Commit for the (finished) task	Notes
N/A	Write essay for Project Skills (due 17th of June)	N/A	Sunwei, Clinton, Tim, Boning, Michiel	3	3	Yes	N/A	
Documentation: The final report that has to be handed in the end of this project.	Finish the draft of the final report.	Michiel	Michiel, Sunwei, Clinton	6	6	Yes	#101	
N/A	Work on resit of Information Skills	N/A	Sunwei, Clinton, Tim, Boning, Michiel	3	0	No	N/A	Not a very high priority task.
Refactoring: Remove any unused code, files etc.	Refactor code of the analyser.	Clinton	Clinton, Sunwei, Michiel	4	4	Yes	#104, 89, 92	
Compatability: Make sure visualizers display correct warnings and information.	Make sure that analyser is compatible with the newest version visualizer	Sunwei	Clinton, Sunwei, Michiel	4	2	Yes	#97	
	Refactor the code	Tim	Tim, Boning	8	8	Yes	#89, 93, 94, 106	
	Add Firefox support for the visualizer	Tim	Tim, Boning	2	1	No	#108	Firefox does not support the gradient options, this is the only bug in firefox but cause of this we added it to the not supported list
Visualizer: The component that is responsible for creating the visualization	Add alert for Internet Explorer (we will not support Internet Explorer)	Boning	Tim, Boning	1	1	Yes	#87	
	Extra information on the GUI for the visualizer (based on feedback from Interaction Design)	Boning	Tim, Boning	2	3	Yes	#89	
	Different color scheme for visualizer.	Tim	Tim, Boning	3	3	Yes	#99	

Main problems encountered:

N/A

Adjustments for the next sprint

N/A

Team member	Total actual effort (points):	Total actual effort (hours)*
Boning	17	32
Tim	15	28
Sunwei	17	32
Clinton	17	28
Michiel	14	28

* One point was estimated to be max 2 hours.

Notes

Besides the tasks that are defined in sprint backlog #6, other tasks have also been completed:	Member(s) who worked on the task	Actual effort per task (points)
Documents for last sprint (improvement of code, testing documentation etc)	Clinton	3
What we did for the feedback includes:		
Some code refactor , remove high cyclomatic complexity in Parsers. #95	Sunwei	2
